All Participants:

Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant's representative was notified that the Claim Amendments filed 1/20/2010 were not in compliance with CFR 1.121 because the currently amended Claim 4, in line 12 contains newly added text (a comma) which was not present in the previous claims and has not been indicated as new by any markings such as by underlining. The applicant's representative confirmed that the newly added comma in line 12 was an inadvertent error and was not intended to be present in the claim and it was agreed that the claims would be entered as filed but that the examiner would examine the claims with the interpretation that the comma in line 12 was not present and was an inadvertent error.
